Crime Prevention Environmental Design (CPTED)

CPTED principles combines proper design, crime prevention practices, and effective uses of the environment to decrease crime and improve the quality of life

1. Lighting

Replace all light fixtures with "dark skies" fixtures. Motion-Sensor lighting is highly recommended.

These fixtures eliminate glare and shadows,

LED lighting allows true colors to be seen at night (and lowers your electricity bills).

2. Surveillance

Video surveillance is your 24/7 witness to help law enforcement catch criminals. Invest in quality surveillance with remote viewing and voice controls.

Place (screened off) seating facing the parking lot and entrance points.

3. Screening

Attractive screens (fencing) maintain privacy and deter graffiti, while allowing visibility into your property AND onto your parking lot and entry ways.

4. Hardscapes

Landscape rocks, such as river rock, deter long-term standing or resting and can help conserve water.

5. Lock It Up

Lock and install a roof on all dumpster enclosures to prevent "dumpster diving" and illegal dumping.

6. Block Access

Block roll-up doors with vehicles or heavy equipment at night to prevent break-ins.

6. Open Views

Eliminate hiding areas and open the view to increase surveillance.

Use the 2 foot / 6 foot rule:

Trim branches 6 feet up from the ground. Keep smaller bush no more than 2 feet in height.

To have a no-cost crime prevention consultation for your business with a certified CPTED Specialist, email us at info@franklinblvddistrict.com

Crime Prevention & Best Practices

- Practice observe & reporting skills often.
- Inspect your property daily/several times a week.
- Turn off Wi-Fi after hours.
- Remove outdoor access to water and electricity.
- Move the placement of expensive items periodically.
- Secure all tools in a locked structure out of view.
- Remove keys from vehicles & check locked doors.
- Block roll up doors with large vehicles.
- Contract with a tow company. Post "Tow Away," "No Trespassing," and "No Loitering" signs.
- Cover walls with live or artificial greenery or art.
- In the event of a robbery, stop business and preserve evidence (don't touch anything).
- ETS tag placement- Sheriff's office allows for electronic tracking of stolen goods.
- Lock all dumpsters during the day.
- Install doors and a roof and dumpster enclosures.
- Install bright outdoor lighting and quality surveillance with motion detection and remote voice capability.
- Cut tall brush and trees 6' from ground and trim brush to 2' in height.

Code Citation on Private Property

If you received a citation for code, weeds, blight or junk for your property - email your mitigation plans to:

City: CL@CityofSacramento.org

County: SacCode@SacCounty.gov

Graffiti / Tagging

Within 72 hours- take photos. File a Police report for vandalism, including ALL costs for removal (including gas) to aid in prosecution.

For removal assistance email photos & location to: info@franklinblvddistrict.com

Owner must provide all supplies and paint

Weed Mitigation

The City and County notifies property owners that high weeds must be abated by April 15th each year, or owner may be subject to a fine.

If you need further assistance, contact:

City: CL@CityofSacramento.org

County: SacCode@SacCounty.gov
